Subject: Additional CA UIC item for weekly

Per discussion with Jane (to merge with earlier item).

CA Class II UIC Oversight: We are continuing to hold discussions with DOGGR and the CA State Water Board regarding their plan for bringing the Class II UIC Program back into compliance. We developed an overall compliance schedule, with proposed deadlines and interim milestones for State actions, that is currently under discussion. We anticipate the compliance schedule will be an attachment to our letter responding to the State's February 6, 2015 submittal, which we plan to send no later than March 9th.
